

Product Specifications

Product number:	<i>HHA-3200</i>
Description:	<i>Human anti-Hepatitis A, purified</i>
Amount:	<i>20 mg</i>
Physical state:	<i>Frozen liquid, buffered 0.05M Sodium Phosphate, 0.15M NaCl, pH 7.4.</i>
Manufacturing method:	<i>Human anti-Hepatitis A antibody is purified by chromatographic methodology.</i>
Storage conditions:	<i><-70°C</i>
Instructions for use:	<i>Suitable for use in standard solid phase immunoassays.</i>
Warnings:	<i>For research or further manufacturing use only.</i>

This product meets or surpasses ImmunoVision's specifications.
